Sangoma phone

The Sangoma Phone for Desktop
A True Soft Client For Your Computer

Switchvox®   PBXACT   freePBX

The **Sangoma Phone for Desktop** turns a user's computer into a fully featured phone that is primed to take full advantage of Sangoma's complete unified communications suite. Users can leverage the Sangoma Phone wherever sufficient bandwidth is available, allowing them to turn their home, hotel room, favorite café, or other remote location into a fully featured office.

Workforce mobility has never been this easy or powerful, allowing businesses to increase their geographic reach like never before. Sangoma Phone also presents users with the possibility of reducing hardware costs and travel expenses.

All the productivity and collaboration features you need in one tool

Chat & SMS/MMS**

Flexible chat and texting capabilities for the modern worker

- Chat with colleagues **one-to-one**, **in a group**, **or in custom rooms** for team discussions
- **Send SMS/MMS text messages to clients****
- Elevate your chats into a **video conference** with a click of a button, whether you are in a 1:1, group, or room chat
- **Image-File Attachments** for when you want to get into the details

Audio

Advanced, crystal clear audio from anywhere

- **Hold/Resume**
- **Blind Transfer** – you can send the call to ring another number or a voicemail box
- **Merge*** – conference one call into another
- **Audio Conference Manager*** – see your conference-call participants and who is doing the talking, mute people, kick people out of the conference, or end the conference entirely
- **Record*** – start and stop a recording of your active call
- **Park*** – park, see and answer parked calls

Video*

Video call, screen-share and chat with an exceptional experience

- **Video call**, **screen-share** and **chat** with colleagues and clients with **Sangoma Meet** video conferencing integration
- Move **voice calls to a video conference** with a click of a button, and have all participants automatically joined. Participants who aren't using Sangoma Phone, such as external clients, will automatically join the video conference as an audio-only participant
- **Create a meet invitation within a chat room for participants to click and instantly join.** Perfect for team meetings with remote workers
