

StarBox® Voice Optimized SD-WAN Family

Your business is unique, so you shouldn't have to settle for a one-size-fits-all communications solution. At Sangoma, we've been leading business communication solutions for over 40 years. Everything we've learned is embodied in the latest versions of our StarBox® Voice Optimized SD-WAN. One of them is just right for your business.

StarBox® 6000

The StarBox® 6000 delivers Sangoma's industry-leading quality, reliability, and savings to customers with larger offices. The 6000 supports 500 extensions at a single location with up to 250 simultaneous conversations.

StarBox® 2550

The StarBox® 2550 delivers Sangoma's industry-leading quality, reliability, and savings to customers with medium-sized offices. The StarBox® 2550 can connect up to 250 extensions at a single location with 50 simultaneous conversations.

StarBox® 1000

The StarBox® 1000 delivers Sangoma's industry-leading quality, reliability, and savings to customers with small offices. The StarBox® 1000 can connect up to 45 extensions at a single location with 15 simultaneous conversations and is perfectly suited for small-medium offices.

Three Sizes, One Amazing Box

All three models share an identical management interface and feature set, including:

- › Integrated monitoring and remote management
- › Always-on call recording
- › Manage multiple locations from a single screen
- › Two-way traffic shaping for voice and data
- › Flexible networking configuration with dual WAN ports for Automatic WAN failover
- › All solid state, low power consumption (as low as 6W)
- › Long life, high reliability
- › Edge traffic shaping
- › 24/7/365 monitoring
