## Where The Best Of Cloud & On-Premises Meet

The Business Voice+ platform combines the best of two communications worlds, leveraging Sangoma's innovative Cloud Architecture. Sangoma pioneered their unique cloud architecture, which combines the flexibility of the cloud with the reliability of an on-premise communications solution. Business Voice+ ensures unparalleled scalability, flexibility, and reliability.

### Explore Business Voice+

Leverage the power of innovation and ultra-reliable communications.

#### Unique Cloud Architecture

Business Voice+ leverages our exclusive cloud architecture technology to deliver the best of cloud-based and on-premises functionality. The Starbox® works in conjunction with our redundant data centers around the country to ensure that all devices can communicate effectively and efficiently to the nearest data center to provide the most reliable Unified Communications on the market.

#### End to End Business Continuity

Business Voice+ stands out as the most reliable Unified Communications system on the market. This system leverages built-in network monitoring, disaster avoidance, and recovery features to make sure that you can still operate internally in the event that you lose internet connectivity.

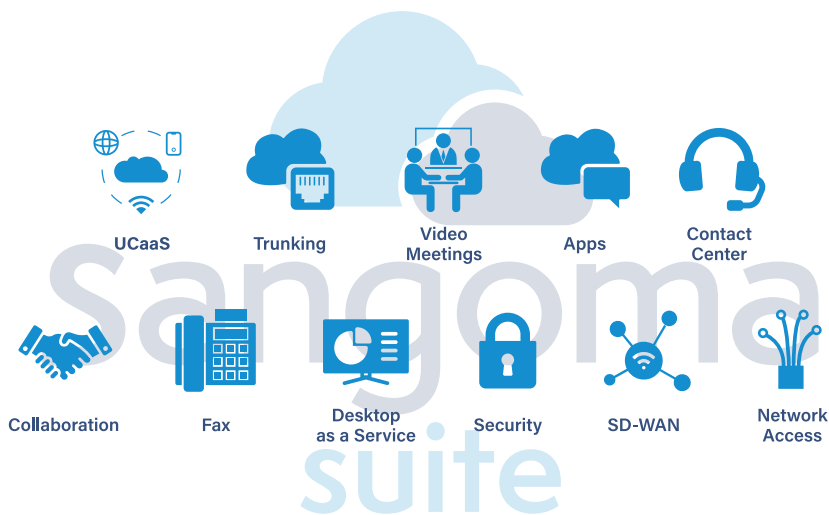

#### Multi-location Flexibility

The Business Voice+ solution is designed to optimize your operations from one location to several. All phones are connected and operate as a single system allowing for direct extension dialing, seamless call transfers, ring groups, call queues, and more.

#### Advanced Unified Communications Features

Our Business Voice+ platform is known for being one of the world's most complete UC systems on the market as part of our Full Spectrum Communications Solution. Business Voice+ comes with built-in advanced features that would be charged as an add-on with other systems.

# Communicate Your Way

Take control of your business communications with Sangoma. With flexible pricing, discounts on multiple as-a-service products, and innovative features- you can pick the bundle that is right for your business and receive discounts on other services to round out your communications ecosystem!
